

Sumário / Inhalt / Contents

- CALLISTO, M., ESTEVES, F.A., GONÇALVES, J.F. Jr. & J.J.L. FONSECA: Benthic macroinvertebrates as indicators of ecological fragility of small Rivers ('Igarapés') in a bauxite mining region of Brazilian Amazonia 1
- VÁSQUEZ, E., PARDO, M.J., ZOPPI DE ROA, E. & C. LÓPEZ: Rotifer fauna from Venezuela 11
- DÍAZ-CASTRO, J.G. & E.R. HARDY: Life history of *Moina micrura* (KURZ) fed with three algae species, in the laboratory 25
- NESSIMIAN, J.L., DORVILLÉ, L.F.M., SANSEVERINO, A.M. & D.F. BAPTISTA: Relation between flood pulse and functional composition of the macroinvertebrate benthic fauna in the lower Rio Negro, Amazonas, Brazil 35
- THATCHER, V.E.: Description of adults of *Octospiniferoides incognita* SCHMIDT & HUGGHINS, 1973, (Acanthocephala: Neoechinorhynchidae) from a fish of Rondônia State, Brazil 51
- GOLOVATCH, S.I. & J. ADIS: Description of *Taulidesmella tabatinga* n.sp. (Diplopoda, Polydesmida, Pyrgodesmidae) from Amazon River floodplains, with notes on its distribution and ecology 57
- GOLOVATCH, S.I., VOHLAND, K., HOFFMAN, R.L., ADIS, J., MÁRMOL, A., BACHMANN, L. & J. TOMIUK: Review of the Neotropical millipede genus *Pycnotropis* CARL, 1914 (Diplopoda, Polydesmida, Aphelidesmidae) 67
- THATCHER, V.E. & M. JÉGU: Amphistomes as species markers of the serrasalmid fish, *Myleus ternetzi* (NORMAN), from French Guiana, with descriptions of two new species and one new genus 103
- PAROLIN, P.: Floristic composition and structure of two stands of *Senna reticulata* differing in age 113
- VOHLAND, K.: Review of the millipede subfamily Amplininae (Diplopoda, Polydesmida, Aphelidesmidae) with remarks on phylogeny and the description of some new South American genera and species 129
